Britain's Pacific Fleet wil be drastically reduced within a month, reliable local naval sources disclosed last night, confirming the "China Mail" report a fortnight ago. All heavy units, at presen in Hong Kong (Pacific Fleet Hendquarters), will be salling for the United Kingdom, leaving behind only one cruiser, three destroyers and a few

As reported in the "China Mall" previously, the aircraft carrier "Theseus," cruiser "Gambia" and depot ship "Adamant" will be the first to leave Hong Kong. The ultimate strength of the Hong Kong base is, however, still being determined, said naval sources yesterday.

# STERLING CONVERTIBILITY

Two Nations Responsible For Breakdown

# Revelations Chancellor

London, Nov. 6. The Chancellor of the Exchequer, Mr. Hugh Dalton, disclosed figures in the Commons late vesterday that showed that Belgium and Argentina were principally responsible for the run on sterling which caused the breakdown of the sterling convertibility system.

Mr. Dalton, in unswer to a 1 bigures of sterling converted question said that Argentina to dollars given by Mr. Dalton converted £23.3 million sterling were: into dollars between July 1 and August 20, which was 4.6 mil- 18.7 millions; July 1 to August lion more sterling than was con. 20-23.3 millions; total-42 milverted in the whole of the pre- lions.

ceding six months. The Belgian monetary area, to June 30—18.3 millions: July according to the Chancellor of 1 to August 20-84.4 millions: the Exchequer, converted £34,- total-52.7 millions. 400,000 sterling into dollars between July 1 and August 20.

Dalton showed that Argentina added 9.3 millions to her sterling millions; July 1 to August 20heldings in the first half of 1947, possibly in order create a reserve to meet balance of the British-owned railways purchase price, and began to liquidate those reserves in July, and in the following two months her sterling assets dropped by 7.5 millions.

Fear The Financial Times said today of Argentina, "It was clearly fear of suspension of arrangements which caused her to get out of sterling."

# Echoes To Radar Signals From Moon

Australian scientists have succeeded in sending radar signals to the moon and received echoes at their second attempt this morning.

The signals were sent from the Radio Physics Laborn. tory Propagation Station at Hornsby outside Sydney to the Australia shortwave station at Shepparton in Victoria, which relayed it to the moon over a distance of 238,000 miles. Within two and a half seconds, the Hornsby station received brittle and compact radar echoes from the moon which were recorded for 20 minutes.

The experiments will be continued to make sure that the echoes were from the moon. Australian scientists hope to learn more about the upper atmosphere by these experiments.-Central News.
